YOGHURT

New Snow Ice – the ingenious ice cream experience.

Imagine pure fruit, such as a ripe mango, pureed, mixed with a little water and a hint of sugar, and then deep-frozen. Now let us grate the thinnest slivers of this into a mountain of loose and airy snow. It's a veritable flurry of fruit. Feel the tender fruit on your tongue - an entirely new mouth feeling without annoying ice crystals. The snow will thaw into a pure fruit experience on your tongue.

There are no annoying additives.
You could say: **Back to natural ice cream.**

Of course, these vegan fruit creations are also supplemented by classics such as vanilla, chocolate & co.

FRUIT-LINE

- // No fat
- // Vegan and lactose-free
- // Barely any calories
- // Without any synthetic aromas and dyes
- // No preservatives

MILKY-LINE

- // Reduced sugar and fat content
- // Light enjoyment with natural sweetness
- // Without any synthetic aromas and dyes
- // No preservatives

Our Snow-Drop ice cream maker – it's as simple as it is ingenious!

Thanks to our innovative and patented chopping procedure, a simple Snow Drop will turn into tasty Snow Ice within just a few seconds.

We developed the ice cream maker for this in Northern Germany, where we also produce it. With its small dimensions of 37 x 35 x 69 cm and weight of not even 30 kg, it is very easy to handle and can be set up easily almost anywhere.

The power demand is at 130 W in operation and only at 5 W in standby. It can be ideally set up in module sales points such as an ice cream cart as well.

YOUR BENEFITS:

- + Minimal power consumption
- + Minimal space demand
- + Portable for mobile use
- + Easy operation
- + Product-conducting parts can be cleaned in the dishwasher
- + Daily cleaning effort less than 5 minutes
- + Designed for > 100,000 production cycles
- + Made in Germany – reliable & long-lived
- + CE and GS certified

4 STEPS TO SNOW ICE ENJOYMENT:

1. Select Snow-Drop.

2. Take the Drop container out of the machine and insert the Snow -Drop.

3. Insert the Drop container in the machine and switch it on.

4. Produce New Snow Ice fresh, decorate and serve it.

How New Snow Ice works – preparation.

We will supply you with the Snow Drops as a powder that you can stir up and freeze yourself or as a deep-frozen product ready for processing.

You can choose between the powdered or the finished drops!

WOW!

100 ML CREATE
400-500 ML PURE ENJOYMENT

Do you want a product presentation or do you have any questions about our comprehensive accessories from mobile counters, helpful accessories and advertising agents?
